SUPPLEMENT To THE South-Carolina GAZETTE.

Tuesday, January 1st, 1752. [NUMB. 919.]

St. James's Parish, *Dec.* 25, 1751.

Mr. TIMOTHY,

AS your intention seems to be, not only to give us *fresh advices*, but also to make your *Gazette* as USEFUL as possible, I think every person whose leisure, capacity and observations can furnish him with proper matter, ought to encourage such intention, and doubtless will be encouraged by you. The great variety of subjects proper to treat of, will allow scope enough for all whose inclinations are bent towards the *Public Good*.

The present necessity and advantage of turning our attention to the *Indico* and *Silk* manufactures, with the best methods of cultivating and improving them, I apprehend, are subjects immediately proper to be wrote of: Also the reasonableness and propriety of a country's availing itself of every interval of peace, for its future security in war, extending its commerce, peopling its frontiers and providing for their protection and prosperity, &c. The *Education* of children and youth: With something upon *Luxury*, &c.

If I may be allowed to contribute my mite, I would desire you to give the following observations, &c. a place in your next; which, tho' hastily drawn up, may be of use: But, as the improvement of my capacity hath been too little attended to in the proper season (too common a complaint!) I must beg the assistance of some abler penman to prosecute my design, and beg your Readers will pass over, or treat, whatever errors may be found in my attempt, with candor and good-nature.

I believe it is yet fresh in every one's memory, that not above a month ago, the first of our staple commodity that came to the *Charles-Town* market, sold at 45 *s.* per hundred; that the price was raised in a short time to 50 *s.* and that it was very suddenly lowered to 40 *s.* What schemes (according to the information given me by my factor there) were form'd; what measures were concerted and executed to effect this sudden and great reduction; and how far the *Planter* himself hath been instrumental in it; may not, perhaps, be altogether proper to be communicated to you, or published, at this time. I shall therefore only observe,

1st, That this sudden and great reduction is a manifest injury to the planter, and consequently to the province in general; which, by every thinking man, must be allowed to be pretty evident; as we may justly reckon this the first favourable opportunity we have had, during the course of 12 or 15 years past, to gain the balance of trade in our favour, from the present great demand for our rice abroad; from the failure, or falling short, of harvests in most of the places that were usually supplied by the markets to which it is exported; from the better circumstances of our planters; from many other causes; and from it's being certain, that the merchant who ships this year, will make a greater profit, if he gives even 52 *s.* & 6 *d.* per 100 for rice, than for some years past, when the market prices here have been lowest. *2dly*, That hence it becomes absolutely necessary for the planter to take every step that may most conduce to fix the prices of our commodities on a just and equitable footing, according to the crops made, and the demand for them abroad.

I have had several schemes in my head, on this occasion: The most eligible of which I have hereunto added, and by which I would propose,

THAT *all or the most eminent planters, in every parish throughout the province, should form clubs, to meet once a month, throughout the year, at the most convenient place (or places) in their respective parishes.*

That these clubs do hold a general correspondence with each other; always endeavour to be unanimous in approving whatever may be proposed for the mutual advantage of planter and merchant; and chuse eight *or* ten *factors in* Charles-Town *(well-qualified persons) to dispose of* ALL *their produce; to whom they should, from time to time, after due information had, transmit accounts of what quantities of* Rice, Pitch, Tar, Turpentine, Indico, Corn, Pease, &c. *are or may be made, or remain, in their respective districts.*

That no shipper of Rice, *be of these factors.*

That the company of factors so chosen, do meet once in every week, at some convenient place in Charles-Town, *to confer with each other, to make proper inquiries, to determine what may be most advantageous for the planter; and to correspond with the several clubs.*

That two factors always act in partnership, for the better conducting of business in case of sickness, &c. *In case of death or departure from the province of either of whom, the majority of the country clubs to approve of a successor to him. And lastly,*

That no planter who chuses to dispose of his crop himself, should (to vend his first) offer to lower the price agreed to be fixed by the factors for these clubs; especially in falling Markets.

AGRICOLA.

N.B. Were such clubs formed, and their meetings regular; among them, proper persons might be proposed, and desired, to become candidates at elections of representatives, for the country parishes, in assembly; which would not only be productive of singular advantages to the province, but also save a great deal of trouble and charges to church-wardens, &c.

LONDON, *October* 17.

Among other good things expected to be done next sessions of parliament, it is said that the land tax will be reduced one shilling in the pound, notwithstanding which, a fund will be found for lessening the national debts. We also hear, that the express that was dispatched to Gibraltar with the ratification of the treaty of peace, friendship and commerce, with the court of Morocco returned a few days ago, with the ratification of the emperor of that country.

Oct. 19. A few days ago, as some workmen were digging up a terrace at Sion house, the seat of the right hon. the earl of Northumberland, about ten feet from the surface under the walls, they found twenty-seven human sculls, one of them of a most enormous size, with the teeth all fast and sound in the jaws of them all; and seven barrels fill'd with human bones; which are supposed to have been there some ages.

According to some private letters from Petersburgh, some foreign merchats have presented a memorial, supported by facts well attested, from which it clearly appears, that by a route therein laid down, all sorts of Chinese and Japan goods, may be brought to Archangel in thirteen months; and

find that this ſcheme, according to the deſire of the memorialiſts, will be referr'd to the royal academy of ſciences, to examine and report their opinions.

Mr. *Timothy*, *Charles-Town, January 1ſt*, 1752.

I HAVE enquired the Price of good merchantable Flour, and find it to be at 4 *l. per Cent.* I am *Yours*, &c.

JOHN DART, Commiſſary-General.

N. B. The Half-Crown Loaves to weigh 2 *lb.* 8 *oz.* this Month.
